

AI Multilingual Health passport for Migrant and Refugee Healthcare

The Broken Healthcare Gap

10.7M immigrants and 600k+ refugees

Language barriers leads to delayed diagnosis,
missed appointments, medication errors

NHS spends £113M+ annually on translation

Patients can't explain symptoms, entailing unsafe care

Existing Systems provide 0 supports

NHS App: no dedicated language support

Babylon Health and Ada: lack NHS integration and
migrant-focused workflows

Our Solution: ORBIS

ORBIS is a non-diagnostic AI platform that transforms multilingual medical documents into standardised, doctor-ready health passports.

Medical Health Passport

Medical-grade DeepL translation produce a clean, shareable health summary.

NHS Navigation AI Assistant

AI chatbot grounded in NHS official guidance. Strict non-diagnostic guardrails prevent misuse, and every answer cites its NHS source.

Privacy-by-Design Secure Translation

PII is redacted before any third-party API call. Users can delete all their data at any time.

Our Solution: ORBIS

难民医疗服务平台 患者诊疗测试单	
项目分类	详细内容
基础信息	姓名: 云奇; 性别: 男; 年龄: 18岁
主诉症状	腹痛腹泻2天, 每日排便3-4次, 无脓血。伴腹部隐痛, 轻度恶心, 食欲不振。体温下降; 因迁延性中重度腹泻, 腹部受凉加重, 四肢轻度发凉, 精神状态尚可
过敏史	过敏源: 青霉素类抗生素、氯霉素类; 过敏表现: 用药后出现皮肤红疹痒, 接触花粉后鼻塞、打喷嚏, 无严重过敏反应。无既往过敏相关病史
既往病史	无慢性基础性疾病, 无手术、外伤史, 无传染病史, 无既往肾脏基础疾病史
初步诊断	轻度急性胃肠炎, 由饮食不洁+腹部受凉诱发, 伴轻度脱水
诊疗注意事项	严格禁用青霉素类药物; 给予胃肠道保护剂, 益生菌调节肠道, 预防口服补液盐补充水分; 忌食生冷油腻食物, 做好腹部保暖; 以流质及半流质为主; 若腹泻加重, 出现高热或脱水症状, 立即复诊
